

Brunt Hill Wind Farm

Public Exhibition and Consultation

E Power Ltd (EPL), is a renewable energy company focused on developing onshore wind, solar and battery projects in the United Kingdom and has been developing proposals for a new wind farm and associated infrastructure (including battery storage). The proposed Brunt Hill Wind Farm project will be located approximately 4.5km north-west of Kinross with the final size and scale of the project yet to be fully determined as we continue to work with our environmental advisers.

We are committed to actively engaging with local residents and community groups to hear their views on the proposals and how the community might benefit from the project. The project team are committed to remain open and responsive to public feedback.

This project is at an early stage of development and we are holding a number of public exhibitions. Information about the proposal will be on display and project representatives will be in attendance to answer any questions.

We encourage members of the community to attend the upcoming public exhibitions.

Interested parties can also contact the Project Team at brunthill@pagodapr.com

In addition, information already submitted to the Energy Consents Unit (ECU) can

17 May

11:30am – 2:30pm

Dunning Village Hall, Auchterarder Rd, Dunning, Perth PH2 0RJ

3:30pm – 6:30pm

Milnathort Town Hall, 1 New Rd, Milnathort, Kinross KY13 9XT

28 June

3:30pm – 6:30pm

Milnathort Town Hall, 1 New Rd, Milnathort, Kinross KY13 9XT

be found on the planning portal using the reference: **ECU00004654**.

This is in accordance with Electricity Act 1989 – sections 36: applications guidance. Preapplication comments and queries can be shared with the project team by way of a feedback form on the day of the events or posted to; E Power Ltd, 15 Pitreavie Court, Pitreavie Business Park, Dunfermline, KY11 8UU. Email representations can also be made using the address above.

Please note: Statements made to the project team are not formal planning representations. If a planning application is submitted to the Scottish Government Energy Consents Unit, then there will be an opportunity to make a direct representation to the ECU.
